

AVIATION TECHNICIAN (ENTRY LEVEL)

JOB DESCRIPTION

As an entry level **Aviation Technician**, you will perform aircraft maintenance on our fleet to meet or exceed airworthiness standards. Under the guidance of the Lead Aviation Technician, you will perform the change, removal, replacement or upgrade of aircraft components to correct failures or implement changes. This role is expected to troubleshoot complex pneumatic, hydraulic, engine, and structural components and systems. You will be responsible for documenting procedures per the established processes to ensure regulatory compliance. In addition, you will support the Lead Aviation Technician with the safe handling of all aircrafts.

This is a full-time position (Monday-Friday) during normal working hours, with the potential for some weekends and overtime hours.

JOB FUNCTIONS

The routine day-to-day functions include:

- Responsible for the maintenance and preventive maintenance of corporate aircraft.
- Determine airworthiness of aircraft and components, in accordance with established procedure and Federal Aviation Regulations.
- Completes aircraft maintenance forms entries and enters data into a Maintenance Data Systems, ensures entries are accurate and complete.
- Services and inspects aircraft, components and related equipment.
- Ensure consistent, accurate aircraft maintenance by properly completing turnover entries on unfinished maintenance in the turnover log.
- Follow all Maintenance Department Policies and Procedures.
- Keep a clean and orderly work environment.
- Make recommendations to improve functions within the Maintenance Department.
- Perform other duties as to complete needs of aircraft operations.

BASIC QUALIFICATIONS

To be successful in the role, you must have the following:

- A valid FAA Airframe and Power-Plant Certificate
- Troubleshooting skills and avionics knowledge
- Knowledge of computer systems
- High School Diploma or GED equivalent
- A valid driver's license

BASIC REQUIREMENTS

- Must be a U.S. Citizen or national of the U.S., or alien lawfully admitted for permanent residence
- Must pass a pre-employment drug screen

COMPENSATION

The **Aviation Technician** (Entry Level) is a full time position, with an annual pay of \$60,000 - \$72,000. Health insurance, retirement plan, paid time off, overtime hours, bonus pay and **signing bonus** are also available.

As part of the Blue Airways Inc. safety sensitive position, a drug-screen is required. Blue Airways Inc. must receive a negative test result before you can be put into a safety sensitive position (14CFR Part 120.107 (a) 4.). Please be advised that you will be tested in accordance with 14CFR Part 120.17(5) Sub Part E.

ABOUT BLUE AIRWAYS

Blue Airways is located at the Red Wing Regional Airport and surrounded by the most scenic and historic areas of Minnesota and Wisconsin. We are a full-service, fixed-base operation that is a fast and convenient alternative to the crowded FBOs in the Twin Cities, while offering equally convenient access to business and entertainment destinations.
